PROJECTS

Co-Team Leader of 14+   https://bit.ly/2GtVXev
Upsilon Pi Epsilon (UPE)/ SparkDev - Mobile Dev • 2020 - Present

• Designed and currently developing a dynamic web infrastructure for a social platform using Android Studio and Java for the Front-end, Flask with MongoDB for the Back-end to manage larger files and Google's Firebase for security and versatility

Technosentinel https://bit.ly/33Decat
Shelhacks • Sep 2020

• This project was created for the propose to combat corona and help communities implementing solutions for coronavirus testing and tracking possible patients.
• This project was designed to accept a stream of incoming images from a thermal camera that are processed in real-time using Google's VisionAPI, and whose information is stored in Firebase Storage, as well as Cloud Firebase since these vary scalable solutions and offer fast ways to have data updated in the clients, finally the website was hosted on the clouding using Microsoft azure.

EXPERIENCE

Sales Specialist
The Home Depot   **May 2018 - Present, Fort Lauderdale, FL**
As a Sales Specialist, my main focus at Home Depot are the customers. In which I am responsible for:
• Anticipating customer needs and providing services that are beyond customer expectations. In addition, building and delivering solutions that meet and go beyond customer expectations.
• Picking up on the need to change personal, interpersonal, and leadership behavior quickly. As an example of that helped to run a department during the absence of the manager in charge for a few months.
• Appling knowledge of internal structures, processes, and culture to resourcing efforts. and applying knowledge of internal structures, processes, and culture to resourcing efforts.
